

About Us

As industry leaders, Tecmoss Group prides itself on delivering exceptional products, innovative solutions, and experience-led designs that reflect our 27 years of expertise in the swimming pool industry. We understand that our products fulfill an important role in making your life healthier and happier.

With our 80,000 square-meter production plant, Tecmoss has integrated Research & Development, Production, Quality Control, and Training & Support, to ensure that we present a comprehensive one-stop solution for our customers.

We offer complete solutions for both commercial and residential aquatic projects and understand the multiple stages involved from design and manufacture to installation and beyond. Our commitment to a holistic approach ensures that we are there with you every step of the way.

Our Mission

We strive to be your trusted water solutions company. With our innovative products and comprehensive services, we endeavor to meet every unique need of our customers and aim to strengthen our offering through synergies with our partners guided by the principles of integrity, transparency, and focusing on people.
